

**Task1: Do you agree with the following statements about studying foreign languages? What are two other ways you have used to learn English?**

- A good way to study a foreign language is by studying grammar and vocabulary so that you have some knowledge before you start practicing speaking.
- A good way to learn a new language is by making friends with a native speaker and practicing with that person.
- The only way to master a foreign language is to live in a country where it is spoken so that you have to speak it all the time.
