2007,

Abstract

The future of United Nations in the light of New International Order

Salameh Shahir Al-Falaila

Mu'tah University, 2007-04-16

This study aimed to identify the future of the United Nation in light of New International System by knowing the reasons which require the reform and if there is a need to reform the United Nation Organization after passing more than sixty years on its establishment and what is the affect of the change in the International System and ti shift it from ambivalence to be disambivalence and how it affect the Organization work style and its department and what is the require reforms and if the reforms could make the change in the work of Organization to fit the New International Reality.

The Study has been established based on basic question that is : "can the Required reforms develop the Work of the Organization and achieve both the International peace and security in addition to answering the Other minor wondering the Study depended on the Analytical method in order to achieve the Goals and destinations of the Study.

The Study came out to the Importance and necessity of making reforms for the United Nation Organization if it was wanted to keep going in its tasks and to achieve the Destination of its existence in the Light of change that have been done in the New International System which require the Change in method and the Way of the Organization work and modifying its promise.

The Study recommended the Necessity of holding an International convergence and asking for reforms by practicing pressure on the Great fifth countries to accept that and the need of reform the security council by adding new countries ,canceling veto's right abrogation , supplying the rganization with independent financial recourses to keep it a way form any form any pressures and giving the General Cooperation New Prerogatives and power When making its destinations to have commitment and implementation to these decisions.
