

# ***TABLE OF CONTENT***

## ***CHAPTER I***

### **GENERAL REVIEW**

#### **PART I/ VOCABULARY AND GRAMMAR ACQUISITION**

- I-1 Noun: definition, kind, singular, plural, compound nouns ...
- I-2 Verb and tenses: definition, transitive, negative form, interrogative form, regular, irregular
- I-3 Adjectives and Adverbs.
- I-4 Comparatives and Superlatives.
- I-5 Pronouns and possessives

#### **PART II/ ORAL COMPREHENSION AND EXPRESSION**

- II-1 Definition
- II-2 Paragraph writing

## **Chapter II:**

### **Use of numbers, symbols, equations and process measurement**

#### **II-1- Math Numbers**

- a/- Natural numbers
- b/- Integers numbers
- c/- Rational numbers
- d/- Real numbers
- e/- complex numbers

#### **II-2- Math symbols**

- a/- Common Math Symbols
- b/- Math Symbols Used in Logic
- c/- Geometry and Algebra Symbols
- d/- Greek Alphabets and Combinatory

Symbol

## **II-3- Math Equations**

a/- Linear Equation

b/- Nonlinear equation

c/- Integrals, Summations, and Limits

d/- Root

e/- Exponential Functions

## **II-4- Measures**

II-4-1- Measurement

II-4-2- Standardization of measurement units

# **Chapter III**

## **Describe a scientific experiment in the field of electrical engineering**

**III-1-** definition of a scientific experiment

**III-2-** Main types of scientific experiment

**III-3-** Examples of scientific experiment

**III-4-** Electrical engineering definition

**III-4-1-** Best Electrical Engineering Specializations, Devices and Tools

- Power and energy
- Telecommunications
- Electronics
- Control engineering
- Electro technical and Instrumentation engineering

**III-5-** Renewable Energy Power Revolution: Latest Trends in Electrical Engineering

**III-5-1-** What Is Renewable Energy

**III-5-2-** Types of Renewable Energy

- 1- Solar
- 2- Wind
- 3- Hydroelectric
- 4- Geothermal
- 5- Hydrogen and fuel cells
- 6- Biomass

**III-5-3-** Most Energy Power Trends in Electrical Engineering

## **CHAPTER IV**

# **Characteristics of scientific text**

IV-1- What are scientific texts?

IV-2- Characteristics of good scientific writing

IV-3- Structure of a scientific text

IV-4- Importance of scientific endorsement

IV-5- Summarizing a Scientific Text

IV-6- Writing a Scientific Paper

- Title
- Abstract
- Introduction
- Methods and Materials
- Results and Discussion
- Conclusion
- References
