9	The Japanese, German and American model of management	1. 2. 3.	
10	Logistics and supply- chain management	1. 2. 3.	

Instructions:

Each group is required to choose a topic and conduct a research of 3 to 6 pages that includes the following elements:

- 1) Definition of the key concepts and the main related elements such as their characteristics and types, along with an explanation of their importance, functioning, reasons for emergence, and the latest developments.
- 2) Provide 10 keywords (Reference words) related to the topic in English and 10 keywords in Arabic, presented in the following table: (with or without translation)

N	English Keywords	Translation into Arabic	Arabic Keywords	Translation into English
1				
...				
10				

- 3) Choose six (6) words and identify for each the verb, noun, adjective, and adverb as shown in the following table:

N	Verb	Noun	Adjective	Adverb
1				
...				
6				

- 4) Formulate three questions about the topic in order to present them to your classmates.
- 5) Finally, each student in the group should present a short summary of what they have learned and benefited from the topic, as well as the main difficulties they faced in terms of understanding or language, and how they think such challenges should be addressed.

Best wishes

Remember, every effort you make to learn today is an investment in your success tomorrow - keep going, you are capable of more than you think!
